

Energy Symposium 2010

Track Three Advanced- (The Master Driller) Agenda

On a drilling rig the Master Driller is the most experienced man. This track is designed for the Master Driller attendee with three morning sessions specifically designed for the Master Driller with combined afternoon sessions with the Roughnecks.

<i>TIME</i>	<i>TOPIC</i>	<i>SPEAKER</i>
8:30 – 9:30am	<i>Contracts & Allocations</i>	<i>William W. Pugh, JD Liskow & Lewis</i>
	This session will give the advanced level attendee (Master Driller) insight into the complexity of specific contracts, the types of contractual risk allocations, define what the do's and don'ts of insurance and indemnity in the oilfield are and the interaction in master service agreements with drilling clients.	
9:30 – 9:45 am	<i>Break</i>	
9:45 - 10:45am	<i>Contracts & Allocations (Continued)</i>	<i>William Pugh, JD Liskow & Lewis</i>
10:45 - 11:00am	<i>Break</i>	
11:00 - Noon	<i>Operations in Pennsylvania</i>	<i>Charlie Scott, PhD Bowen, Miclette & Britt, Inc.</i>
	This session will give the advanced level attendee (Master Driller) valuable information with regards to the drilling of Marcellus Shale in New England, defining where and what it is. Attendees will learn why it has been cost prohibitive historically and where the industry is with advanced technology making it productive. As more and more clients move into this area the attendee needs to know why having underground resources coverage and limits is so vital and what the regulations are in these areas of the	

country.

Noon - 1:00pm

Lunch

Dan Eby, P.E. & Troy White

1:00 - 1:30pm

Cudd Well Control Presentation

Cudd Well Control

1:45 - 3:00pm

OHSA/DOT/HSE Regulations

*Jacqueline Armstrong
Bowen, Miclette & Britt, Inc.*

The advanced (Master Drillers) and intermediate (Roughneck) attendees will come together for an informative session on how regulatory agencies play a major role in the drilling site. Knowing what the regulations are and what the regulatory agencies are looking for is critical to the safety of a site. This session will review OHSA, DOT, AFT and others.

3:00 - 3:15pm

Break

3:15 - 4:30pm

H2S-What is this Pollutant

*Charlie Scott, PhD
Bowen, Miclette & Britt, Inc.*

The advanced (Master Drillers) and intermediate (Roughneck) attendees will come together for collective instruction on Hydrogen Sulfide defining what it is, where are the dangers, what are the various stages of land based drilling and what are the fatality rates?

4:30 - 6:30pm

Reception
